LOADING AND UNLOADING

Unloading takes place via a closed loading bay. Box is located on the first floor and is only accessible using a lift (3,0m x 3,0m x 3,0m).

PLEASE NOTE: approaching the loading bay with a trailer is difficult. Please inform us in advance if you plan to arrive with a trailer, as we will need to request a parking ban for the street.

SEATING AND CAPACITY

204 seats with standard seating configuration.
224 with 1 extra row in the front.
244 with 2 extra rows in the front.

MIXING POSITION

The mixing desk is located in an open mixing cabin at the top of the seating stand.

STAGE

Box is a flat floor auditorium with retractable stand and a fixed grid.
There are walkways all around of 1,2 m wide at 7 m height.

There's an electrically powered mobile walkway spanning the entire width of the auditorium, right below the grid: 14,5 m wide. Lights are suspended and aimed from this walkway. It is best to work back to front systematically when hanging lights and other objects.
During shows this walkway is placed as far to the front as possible, above the audience.

Floor area: 17,8 m wide
With stand retracted: 26 m deep
With stand extended: 14 m deep
Height below grid: 8,8 m

Between walkways: 15,5 m wide
Height beneath walkways: 7 m

Playable area (between walkways, draperies and sightlines)
15,5 m wide x 12,5 m deep x 8,8 m high

Mobile walkway below grid: 14,5 m wide

Mixing walkway behind stand, 2 m wide.
